## PRESENTAZIONE

### Nuovi sistemi di chiusura per porte in vetro

La nostra società propone, a livello internazionale, una vasta gamma di prodotti pratici, eleganti e tecnologicamente innovativi.

Anche se nata in concomitanza al brevetto internazionale della nostra cerniera modello Only, la nostra società si avvale di tecnici e dirigenti di comprovata esperienza nel settore degli accessori per porte in vetro.

La nostra nuova cerniera (mod. "ONLY"), sulla base del test ICQ report 11033, ha superato brillantemente le prove di apertura e chiusura della durata di 250.000 cicli senza manifestare alcun malfunzionamento.

**Con il nostro prodotto non sarà più necessario forare il vetro. Inoltre, non avendo olio al suo interno, non risente degli sbalzi di temperatura.**

Con il successo raggiunto nelle maggiori fiere internazionali (Vitrum di Milano 2007 – Glasstech di Dusseldorf 2008), i più grandi rivenditori al mondo nel settore del vetro, stanno riconoscendo la nostra società come un fondamentale partner commerciale per il mercato presente e futuro.

### New door closing systems

Our company proposes on an International market a wide range of functional, elegant, practical and very technological products for glass doors.

Even if our company is a new one, born together with the realization of a new model of hinge, patented in 2007, our staff have a great experience in the research of new practical and innovative solutions for glass doors.

Our new model of hinge (named "ONLY"), on the base of the ICQ test, report 11033, has passed with success the fatigue test, composed by 250.000 cycles without any malfunction

With our main product (model only) you do not have to make holes in the glass. Moreover, as it does not have oil inside, it does not suffer hot or cold temperatures.

With the success obtained in the biggest exhibitions in the world (Vitrum Milan 2007 – Glasstech Dusseldorf 2008), the most important companies in the market of accessories for glass doors are seeing our company as a fundamental commercial partner for the present and the future.

**Materiale:** Ottone.

**Caratteristiche Tecniche:**

- **Chiusura automatica** con molla di richiamo.
- Sistema meccanico senza olio.
- Blocco a 90°.
- Modelli disponibili Destro o Sinistro (Dx/Sx).
- Richiede fori nel vetro (vedi disegno tecnico)

**Peso Massimo Vetro:** 120 Kg.

**Dimensioni Massime Vetro:** 1300x2800mm (LxH).

**Spessore Vetro:** 8-10 mm.

**Finiture:**

- Cromo Lucido (Art. ONLY.EXTRA 1001)
- Nikel Satinato (Art. ONLY.EXTRA 1005)
- Oro (Art. ONLY.EXTRA 1007)

**Material:** Brass.

**Technical Data:**

- **Automatically closing system** with backing spring.
- Mechanical system without oil.
- Blocking system at 90°.
- Available models Right or Left (Rt/Lt).
- It requires holes in the glass (see technical drawing)

**Maximum Glass Weight:** 120 Kg.

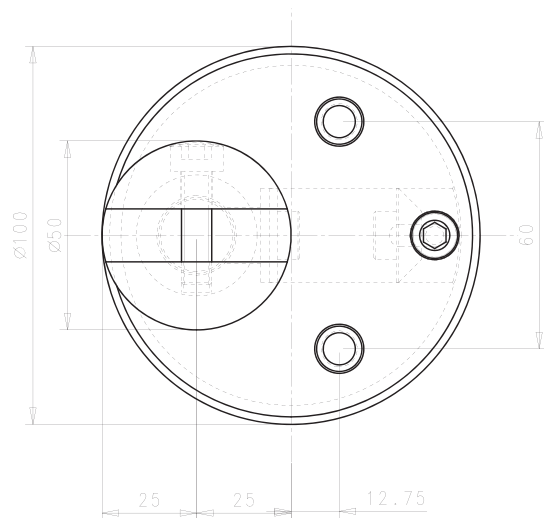

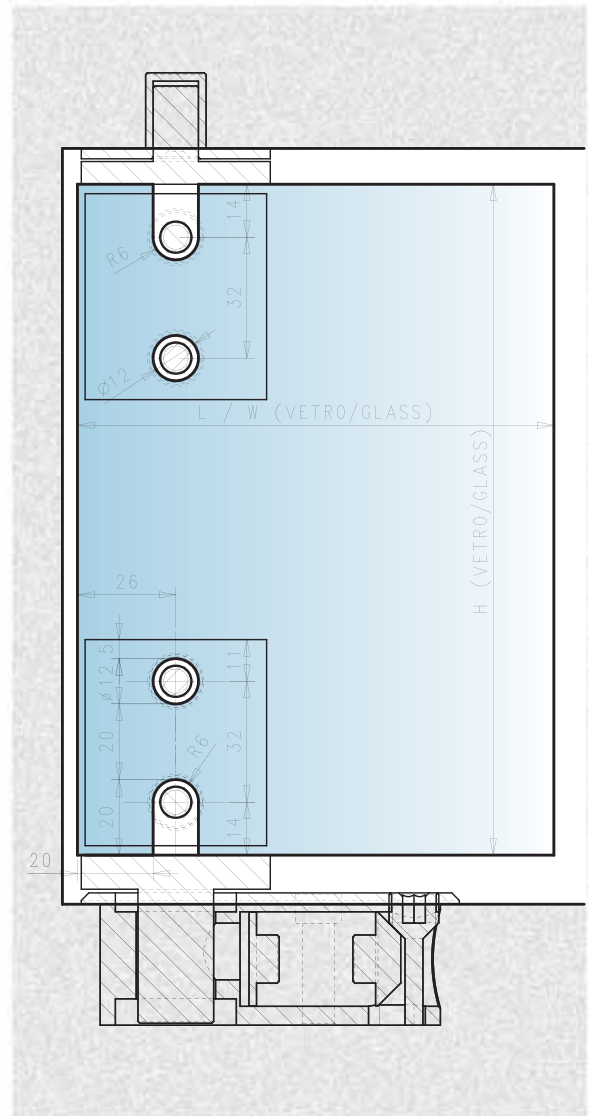

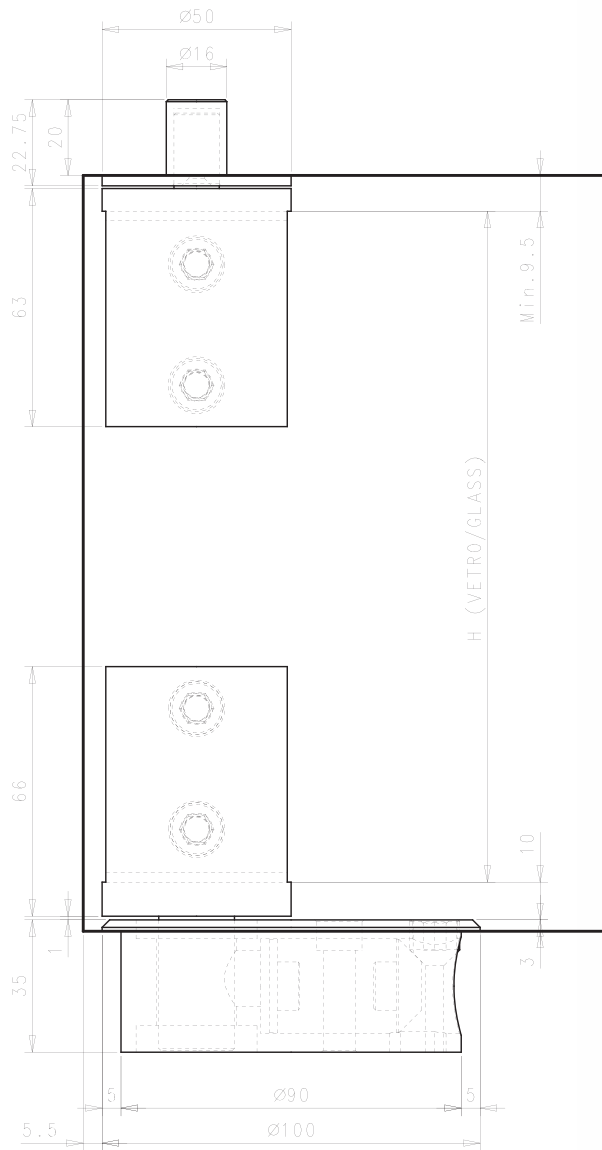

**Maximum Glass Size:** 1300x2800mm (WxH).

**Glass Thickness:** 8-10 mm.

**Finishing:**

- Polished Chrome (Item ONLY.EXTRA 1001)
- Satin Nikel (Item ONLY.EXTRA 1005)
- Gold (Item ONLY.EXTRA 1007)
